

Some Key Messages

a. I support our teachers

The Teacher Tax Credit gives relief to teachers who so often buy classroom materials and supplies out of their own pocket.

b. Art, music and sports programs are essential

We must support these classes that help our children receive a well-rounded and complete education.

c. School infrastructure is a priority

Our schools need to be safe and well maintained, this act will ensure that public schools have the resources they need to maintain the schools.

d. Scholarships will benefit our children

Providing our kids with the opportunity to have access to quality schools is something we must support.

e. Cost of tuition

With the rising cost of private school tuition, increasing the maximum amount of tax deductions that parents can claim will provide needed financial relief for many families.

f. Children deserve the best education possible

I believe investing in children is investing in the future.
